

EYFS

We achieved RHS School Gardening Award Level 3.

To achieve this level

We had to write around 200 words about a mini project or activity in the garden, based on healthy eating, wildlife in the garden, composting and recycling, or exploring a curriculum topic through the garden.

Our BIG Questions:

Which animals live here and how will we know?

Do all birds eat worms?

Does the robin have a nest? Where is it then? Can we make a nest?

Why aren't there any bees?

What if there's no worms? Will the robin die?
