

French Penpal Project

In 2020, through an organisation called *eTwinning*, we launched a Penpal project for our Year Five pupils. In Autumn 2022, we formed a new partnership with a small Catholic school in Nans-les-Pins, located in the South East of France. The Year 5 children exchanged letters with their French counterparts, first writing in their native language to share information about their interests and school life. Later, the children were paired with a partner from the French school and wrote their next letters—this time in French!

Our Penpal School also made a video to teach the Year Three children about life in a French school.
