

Bringing the past to life!

During 2020 and 2021, a period of History that future generations will look back on and study, the pupils of St Anne's have continued their hard work of discovering, commemorating and studying other periods of time for our country and the world.

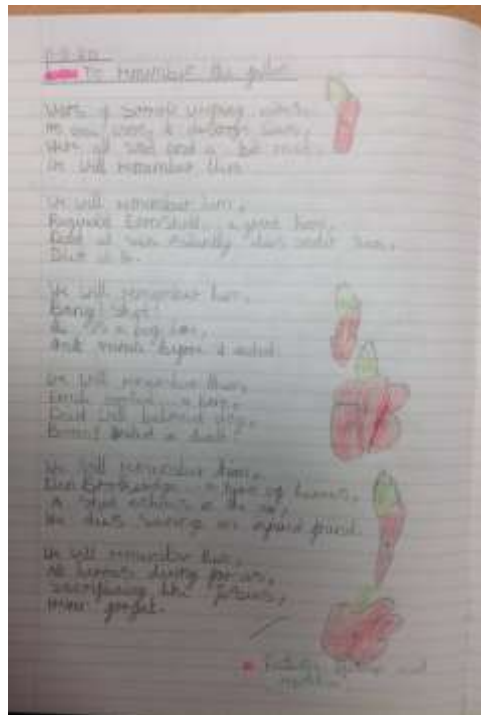

During the Autumn Term children in Year 2 focused on the history right on their doorstep, with a focus on Ormskirk. The pupils were able to learn about local landmarks and their significance and even created famous Ormskirk gingerbread men!

After a year of gratitude for our NHS, Year 4 appropriately studied the history of this British institution. They heard firsthand accounts from people who remembered its creation and the ability to then get glasses and help with their teeth.

They also discussed how Aneurin Bevan's vision was different to how it eventually turned out.

As always in November St Anne's fell silent at 11am on 11th November to mark Remembrance Day. Through poems, art and research pupils remembered those lost in conflict during the First and Second World Wars and more modern conflict.

Even with the school closures during Spring Term pupils continued their History learning, but with the help of parents as well as teachers.

For example, Year 3 looked closely at the Roman Empire and its effect

on Britain. One aspect they focused on was the strength on the Roman Army. They even created their own Roman shields ready for battle when they returned to school!

In the Summer Term Year 1 turned the clock back to 1912 and the infamous sailing of the Titanic. They even had a day dressed for the occasion ready to enjoy afternoon tea and dancing, just as passengers had over 100 years ago before the most famous maritime disaster in History.

Future historians are developing their love of this subject even at a young age and it's wonderful to see!
