

St Anne's Primary School Maths Progression: Addition and Subtraction

Reception

Nursery

- Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs
- Add and subtract one-digit and two-digit numbers to 20, including zero

- Confidently recall number bonds to 5.
- Recall some number bonds to 10 using various aids.

- Begin to explore concepts of one more and one less.

- Represent and use number bonds and related subtraction facts within 20

- Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \square - 9$

YEAR 1

- Read and write numbers to at least 100 in numerals and in words phonetically.

- Count in steps of 2 and 5 from 0 and in tens from any number forward and backward.

Key
 Number Bonds
 Mental Calculation
 Written Methods
 Inverse Operations,
 Estimating and Checking Answers
 Problem Solving

- Compare and order numbers from 0 up to 100; use $<$, $>$ and $=$ signs.

- Partition any 2 digit into different combinations.

YEAR 2

- Add and subtract numbers mentally, including:
 - a three-digit number and ones
 - a three-digit number and tens
 - a three-digit number and hundreds

- Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction.

- Estimate the answer to a calculation and use inverse operations to check answers.

YEAR 3

- Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate.

- Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.

Add	Addition	Sum
Total	Sum of	Altogether
Tally	Count	Combine
Increase	Perimeter	And
Plus	+	Add on

Subtract	Take away	Minus
Less than	Difference	Remove
Deduct	Decrease	Reduce
Fewer	-	Take off

+ problem solving

- Use inverse operations to check answers to a calculation.

Vocabulary YEAR 4

- Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)
- add and subtract decimals.

- Add and subtract numbers mentally with increasingly large numbers.

- Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy.

- Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.

- Perform mental calculations, including with mixed operations and large numbers.
- Use their knowledge of the order of operations to carry out calculations involving the four operations.
- Recognise and use relationships between the operations $+$, $-$, \times , \div , including inverse operations.

- Use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.

YEAR 5

YEAR 6

- Solve addition and subtraction multi-step problems in contexts.
- Solve problems involving addition, subtraction, multiplication and division.

- Use the four operations, including formal written methods, applied to integers and decimals.
