

Miss Whiteside and Mrs Preston launched our 'Walk to School Week' in our assembly. We talked about the importance of walking to school to show that we are trying to 'Live Simply and Sustainably' as part of our CAFOD mission.

The children looked at how they could care for our world and designed the most fantastic pledges in response to Pop Francis' message to protect our common home.

The school council then met to choose some of the pledges to update our Easter Garden into a 'Our Common Home' garden with our pledges.

The children then noted the impact of our Walk to School week by identifying how many children walked to school on the Friday before Walk to School Week and then the increase during the event. We identified that each class had an improvement of walking all or part of the way during the week.
