How are living organisms classified?

Think about:

- What are classifications based on? How did we classify the liquorice allsorts?
- What are the three large groups that we have focused on today and what separates them from each other?
- Go into more detail about plants. How can they be classified differently from one another?

School Rules!

**This is an important matter:
How we should behave at school.
We will get along much better
When we can obey the rules.**
