There has been a variety of clubs to try and encourage pupils to take part. The clubs have been available for Year 2-Year 6 pupils. Quote from pupil “I have loved the afterschool clubs and I have improved my technique in different sports. I have been able to represent my school in a Handball competition after learning how to play in afterschool club.”</p> <p>There is a targeted intervention programme. Of those children who have been targeted the majority are now taking more of an active role in physical education lessons. They have a more positive outlook of physical activity and can explain ways of how to live a healthy balanced lifestyle. Teachers have commented on the positive affects the intervention has had on the children and they have become more motivated and have a more positive outlook in other areas of the curriculum.</p> <p>Positive attitudes towards healthy and active lifestyles are evident among pupils and staff and are extended to families</p>

Key indicator 5: Increased participation in competitive sport				Percentage of total allocation:
				0% (£0)
Intent	Implementation		Impact	
Your school focus should be clear what you want the pupils to know and be able to do and about what they need to learn and to consolidate through practice:	Make sure your actions to achieve are linked to your intentions:	Funding allocated:	Evidence of impact: what do pupils now know and what can they now do? What has changed?:	Sustainability and suggested next steps:
<p>Sports competitions can provide positive outcomes for young people but also have the capacity to foster negative outcomes. A positive experience can support the physical, emotional, social and personal development of a young person and encourage life-long enjoyment and engagement in physical activity. This includes developing important life skills such as leadership, teamwork, empathy and conflict resolution. In contrast, without careful planning, sports competitions can promote overly aggressive behaviour, rejection, fear of failure and the development of a negative mindset.</p> <p>To ensure a positive experience for ALL pupils, as a school, we consider the PRINCIPLES OF COMPETITION</p> <ol style="list-style-type: none"> The young person's motivation, competence and confidence are at the centre of the competition. The focus is on the process rather than the outcome (on the learning and values development of the young person rather than the result). Volunteers, leaders and officials are appropriately trained and display behaviours reflective of the nature of the competition. 	<p>To develop an inclusive competition framework which offers a wide range of competitive opportunities through extra-curricular activities that enable pupils to compete at a personal level (personal best), intra and inter level. Competitive sport fixtures are played at all levels to cater for the different needs of children, providing safe, challenging and healthy competitions</p> <p>Develop a process for:</p> <ol style="list-style-type: none"> Selection: Thinking about who in school needs the benefits of competition the most to support their personal development? Preparation: Preparing young people to be competition ready – a competition is much more than an isolated event. Ensuring time is spent building confidence and knowledge as well as developing physical competence. Supporting a positive experience: Through creating a supportive environment that focuses on the process as opposed to final standings or who lifts the trophy. <p>To provide an opportunity for ALL pupils to have represented the school</p>	<p>On-going mini bus costs.</p> <p>WSSL (mentioned above)</p>	<p>More children attending extra-curricular sports.</p> <p>An increase number of children accessing sporting events outside of school. We have accessed come and try events as well as competitive events to allow a variety of pupils to attend.</p> <p>SEN events attended throughout the year to provide wider opportunities.</p> <p>There is a recognition in school that competition is important as it is a life skill in itself. Competition done well makes children well, makes children secure in themselves and have that self-motivation to want to achieve more.</p>	<p>To provide more intra sports opportunities to allow children to be more competitive in school.</p> <p>To continue to attend weekly sporting events.</p>

<p>4. The environment is safe and creates opportunities to learn and maximise social development.</p> <p>5. The facility and the environment that is created for the competition reflects the motivations, competence and confidence of the young people and format of the competition.</p> <p>We also consider that competition can take place in a variety of settings and environments such as:</p> <p>Personal Best – competition against oneself</p> <p>Intra – competition taking place within school</p> <p>Inter – competition with other schools</p> <p>County – competition with others across the county</p> <p>Virtual – using virtual platforms to stimulate competition</p>	<p>To develop a system to monitor participation.</p> <p>Make competition a time to celebrate. To make a big deal of all competitions by celebrating them in assemblies and displaying reports around the school.</p> <p>SLA with Cluster Partnership and Rhinos provides a range of inter/intra and virtual competitions.</p> <p>Regular involvement in competitions and events throughout the year</p> <p>Cover provided for PE coordinator to take children to events.</p> <p>Two mini buses to allow more participants at events.</p>
