Aim of the Accessibility Plan

1. The Accessibility Audit
2. Planning duty 1: Curriculum
3. Planning duty 2: Physical environment
4. Planning duty 3: Information

Aims of the Accessibility Plan

This Plan outlines how the School aims to increase access to education for pupils with disabilities in the three areas required by the planning duties in the Equality Act 2010 (i.e. the curriculum, physical environment and information).

A person is regarded as having a disability under the Act where they have a physical or mental impairment that has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities.

This Plan aims to:

- Increase the extent to which pupils with disabilities can participate in the curriculum.
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to pupils with disabilities.

This Plan is reviewed every three years to take into account the changing needs of the school and its pupils. The plan is also reviewed where the school has undergone a refurbishment/significant alterations or new build.

The Accessibility Audit

To assist in the development of the Plan and the identification of key issues the School will undertake an Accessibility Audit – at least once every three years. A template for the audit is attached at **Appendix 1** and covers the following three areas:

- **Access to the curriculum** – the School will assess the extent to which pupils with disabilities can access the curriculum on an equal basis with their peers.
- **Access to the physical environment** – the School will assess the extent to which pupils with disabilities can access the physical environment on an equal basis with their peers.
- **Access to information** – the School will assess the extent to which pupils with disabilities can access information on an equal basis with their peers.

When conducting the audit, the school will consider all kinds of disabilities and impairments, including, but not limited to, the following:

- **Ambulatory disabilities** – this includes pupils who use a wheelchair or mobility aid
- **Dexterity disabilities** – this includes those whose everyday manual handling of objects and fixtures may be impaired
- **Visual disabilities** – this includes those with visual impairments and sensitivities
- **Auditory disabilities** – this includes those with hearing impairments and sensitivities

- **Comprehension** – this includes hidden disabilities, such as autism and dyslexia

The audit should be used as a standalone tool to prompt investigation and review and need not be published with the Accessibility Plan.

The findings from the audit will, however, be used to identify the broad issues to be addressed and the actions to be taken to improve access.

All actions will be carried out in a reasonable timeframe. The actions that will be undertaken are detailed in the following sections of this document.

Planning duty 1: Curriculum

- Extra-curriculum visits are carefully selected to enhance the subject area being covered. Staff will discuss with parents and the SENDCO any requirements needed. Any additional requirements or adaptations are considered and implemented wherever possible to ensure full inclusion.
- We modify any residential visits to ensure all children can experience all or part of the experience.
- We prepare resources on coloured paper for those who struggle with black on white and print resources from the board to avoid looking up and down for those children who struggle with tracking information.
- We provide ear defenders and quiet spaces for children with sensory needs.

Planning duty 2: Physical environment

- The school is wheelchair accessible
- Disabled toilet facilities are located throughout the school
- We have changing areas for additional personal care needs
- We provide specialist chairs for individual needs
- We use breakout spaces and workstations away from the busy classroom
- We have sensory spaces and calming and regulation safe spaces

Planning duty 3: Information

- We offer to read documents/newsletters for parents who require it.

Accessibility Audit

Under the Equality Act 2010, it is a legal requirement for schools to provide equal opportunities for all pupils, including equal access to the physical environment, information, and the curriculum without hinderance. The school must also accommodate the needs of staff and visitors Lead have disabilities, both inside its buildings and on its grounds.

How to use this audit

The audit will be carried out at least once every **3** years. It comprises three sections: **access to the curriculum**, **access to the physical environment**, and **access to information**. Guidance notes are attached at the end of the audit to help prompt enquiry. Actions should be collated into broad issues for carry over to the Accessibility Plan.

An audit for all types of disability

While conducting this audit, schools should consider all kinds of disabilities or impairments, which may include:

- **Ambulatory disabilities** – this includes pupils who use a wheelchair or mobility aid.
- **Dexterity disabilities** – this includes those whose everyday manual handling of objects and fixtures may be impaired.
- **Visual disabilities** – this includes those with visual impairments and sensitivities, so lighting, glare, contrast and colour should be considered.
- **Auditory disability** – this includes those with hearing impairments and sensitivities, so induction loops, visual signals and acoustics should be considered.
- **Comprehension** – this includes hidden disabilities such as autism and dyslexia. Considerations should also be made for pupils with English as an additional language (EAL).

Guidance Note 1 – Access to the curriculum

1. How does the school enable all pupils to have access to the full curriculum without hinderance including PE, drama and music?
2. How do staff adapt lesson plans so that all pupils can participate and reach their full potential?
3. How does the school ensure that all pupils have access to extracurricular activities and are able to participate in school trips?

Guidance Note 2 – Access to the physical environment

1. How has the school made sure that access routes, entrances (including reception), doors and corridors are wide enough for wheelchair users and those with ambulatory difficulties to have room for manoeuvre? Are ramps and power assisted doors used where appropriate?
2. Are accessible toilet and changing facilities available for people with disabilities?
3. How does the school allow wheelchair users and those with ambulatory disabilities to have access to seating in dining halls, classrooms, staff rooms and offices and to have adequate room to manoeuvre?
4. How has the school made sure that floors & lighting are suitable, and that tactile signs are used for those who are visually impaired or who have physical disabilities?
5. How does the school make sure pupils with hearing impairments are notified when the school bell rings and are induction loops and couplers provided?
6. Are means of escape fully accessible including from upper floors and is the fire alarm visual as well as audible including inside toilets.

Guidance Note 3 – Access to information

1. Are relevant areas of the school clearly signed for those with visual impairments and disabilities, such as autism or dyslexia?
2. Do you have arrangements to provide information in simple language, symbols, large print, on audiotape or in Braille for pupils who may have difficulty with standard forms of printed information?
3. Do you have the facilities, such as ICT, to produce written information in different formats?
4. Do you ensure that information is available to staff, pupils and parents in a way that is user friendly for all people with disabilities?
5. How has the school ensured its website is accessible to everyone, such as the incorporation of translation features and audio reading?
