

*Leopards class topic web*  
*Summer Term –Romans & Plants and Living Things*

We will be looking at the influence and importance of the Roman Empire. We will also be learning about Boudicca’s Rebellion, Roman Gods and Goddesses and the impact of Roman Civilisation in Britain today.

We will be learning about the different parts of flowering plants and what they need for life and growth. We will also be investigating the way in which water is transported within plants and exploring the part that flowers play in the life cycle of flowering plants. This term we will also be learning about changes in the environment that sometimes pose dangers to living things.

We will be exploring great artists from the past and present, linking this with our History work.

We will be looking at the major rivers around the world and locating them on a map. We will also be looking at how the main components of rivers are formed and why they are so important.

We will be designing, making and reviewing our own Roman Shields.
