

*Topic Web – Lions class – Autumn term*

Autumn

We will investigate the history of the Anglo Saxons – how they invaded and settled, their daily life, their culture and worship.

We will investigate the reasons why groups of people settled where they did, the uses of land etc.

We will be designing and making shields, anglo-saxon villages, food, materials etc.

We will also link our art to our topic work on the Anglo Saxons – looking at art and design from this period.

ICT will be used to enhance and research topic work.
