

St Bernard's Nursery

(Children aged 3 and 4)

We have fantastic environments, both indoor and outdoor to enrich children's learning and development.

Continuous provision allows the children to learn through play, explore, experiment, discover and solve problems in imaginative and playful ways based on their own interests.

A mixture of child-led and adult-initiated activities ensures children develop their speaking and listening, social skills and independence.

Parents / Carers may use their 15 hour (universal entitlement) & the 30 hours (extended entitlement) for working parents of 3 & 4 year olds.

The Nursery hours are from 8:45 am - 3:15 pm and is term time only.
We also provide extended care before and after the school day -in line with our current "wrap-around" school arrangements - 7:30am until 6:00pm

During their time in nursery, children will be continually observed during their play, which allows staff to plan activities to support their learning and development based upon their individual interests to enable them to meet their milestones.

These photos/videos and written observations of the activities they do in nursery are uploaded to Class Dojo to share with parents.

Parents are also able to add their own photos and comments to their child's portfolio to enable a shared partnership for children's development.
