My Child At School (MCAS)

Dear Parent/Carer

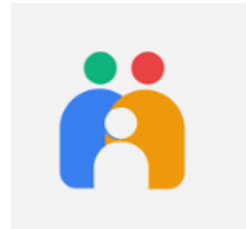

We use Bromcom as our database system at St Botolph's. This has been a new system for us since February 2024. As part of this system, parents can access the My Child at School (MCAS) website or app to keep up to date with communications, book school meals and pay for trips and wrap around care.

If your child starting with us already has a sibling on roll at St Botolph's, you will not need to activate another MCAS account, you will be able to see your child's name using the switch account option (by clicking on your current child's name).

For our new families, we ask you to activate your MCAS account. Simply download the app or go to the website, follow the '**Reset Password**' option on the sign in screen and follow the instructions on screen.

The app is available for download from the Apple Store or Android Store. QR codes below. **Please ensure you have notifications turned ON otherwise you will not receive messages via the app.**

There is also a desktop version which can be accessed via an internet browser if you prefer although we would suggest using the app if you can.

MCAS desktop version: <https://www.mychildatschool.com/MCAS/MCSParentLogin>

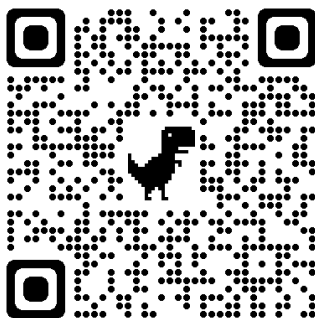

It is essential that parents activate their account so that important communications about your child and school events are not missed. If you have any problems, please contact the office team via informus@st-botolphs.peterborough.sch.uk and we will be happy to help.

Yours sincerely

Mrs Drew
