## Coronavirus (COVID-19): Catch-up Funding Plan

| Overview      |   |               |        |              |    |  |
|---------------|---|---------------|--------|--------------|----|--|
| School        | School St. Chad's Catholic Primary School |               |        |              |    |  |
| Academic Year | 2020-2021                                 | Catch-Up Fund | £6,880 | Total Pupils | 86 |  |

## DfE Guidance

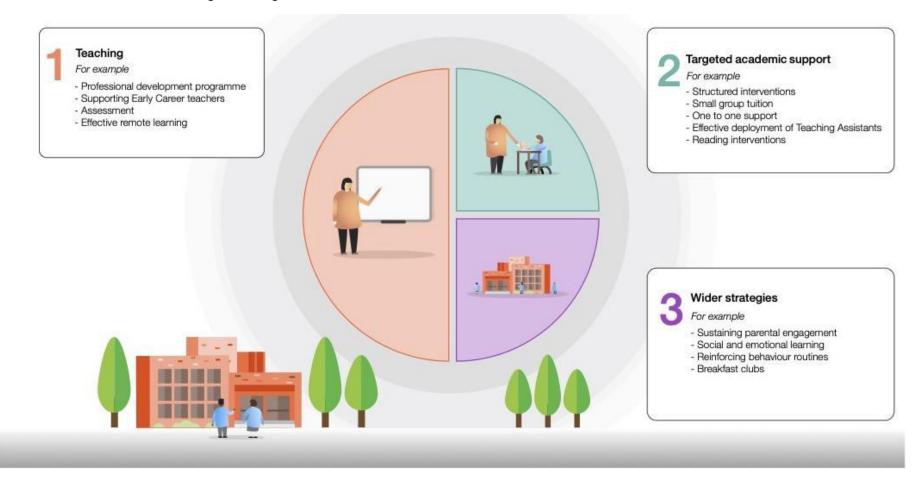

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the curriculum expectations for the next academic year in <u>actions for schools during the coronavirus outbreak</u>.

While schools can use their funding in a way that suits their cohort and circumstances, they are expected to use this funding for specific activities which will help pupils catch up on missed education.

To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a <u>coronavirus (COVID-19) support guide for schools</u> with evidence-based approaches to catch up for all students.

To support schools to implement their catch-up plans effectively, EEF has published the <u>school planning</u> <u>guide</u>: <u>2020 to 2021</u>. This will provide further guidance on how schools should implement catch-up strategies and supporting case studies to highlight effective practice.

## EEF Model for Evidence based Strategic Planning

| Identified Imp | pact of COVID 19 (Primary)   |
|----------------|--|
| Maths          | Children have missed units of teaching meaning some have gaps in their knowledge of certain mathematical concepts and the skills linked  |
|                | to these. In other areas, some children have misconceptions due to lack of high-quality teaching from trained teachers. Some of the      |
|                | children are much less resilient when it comes to problem solving.   |
| Writing        | Some of the children's handwriting has declined. Some of the children's confidence to write extended pieces independently has            |
|                | decreased- they are requiring more support and scaffolding. Some of the children have forgotten key terminology (verbs, nouns) and use   |
|                | of vocabulary is very basic. Some of the children have got into bad habits and forget to punctuate their work with basic punctuation     |
|                | (capital letters, full stops).   |
| Reading        | Some of the children have gaps in their phonics knowledge due to missing the teaching of certain sounds. Some children's reading ages    |
|                | are lower than expected for their age due to lack of reading and some are finding comprehension more difficult.                          |
| Foundation     | Children missed units of teaching meaning some have gaps in their knowledge of certain concepts. There are gaps in the children's skills |
|                | due to missing units of teaching.  |
