**TECHNICAL AND PROFESSIONAL QUALIFICATIONS DESIGNED WITH INDUSTRY
TO GET YOU READY FOR DEGREE-LEVEL STUDY AND EMPLOYMENT.**

- + A planned industry placement for every full-time student*
- + Real-life learning designed for the real world*

WELCOME TO B&FC

*Philip Grant
Head of 16-19*

At B&FC, we're passionate about supporting you to achieve your university and career ambitions. We offer outstanding teaching and learning as part of a safe, friendly community, providing you with all the knowledge, skills and experience you need to progress towards a bright, rewarding future.

Working with over 1,800 employers enables us to tailor our courses to meet the needs of industry. Taught by our industry specialists with access to state-of-the-art facilities and a guaranteed industry placement, you will develop technical and professional skills to give you a head start on your chosen future career.

As a 'learning and growth' organisation, joining the B&FC Community is as much about the journey as the destination and we'll encourage you all the way.

Throughout your learning adventure, you can look forward to meeting new friends and taking on new challenges through exciting opportunities to develop not just as a student but as a person.

If you'd like to join our community, please apply as soon as you can to reserve a place on your chosen course.

We look forward to hearing from you!

*If you don't have a relevant position, we can support you to find one. Go to blackpool.ac.uk/apprenticeships/vacancies

LEVEL 3 TRIPLE DIPLOMAS AT B&FC

If you like the sound of fewer exams, a chance to gain industry experience and earning a qualification that employers and universities love, read on...

Just like A Levels, a Level 3 Triple Diploma is a 2-year qualification that provides the maximum 168 UCAS points you need for university. But unlike A Levels, Level 3 Triple Diplomas are more assignment based with the focus on developing industry skills and experience. That's why employers and universities like them so much!

WHAT'S COVERED

At B&FC, your study programme is designed to give you a head start on your future career. It covers theory and practical sessions in your chosen subject, regular progress meetings, career planning, employability skills, English and maths at the appropriate level and a relevant 20-hour industry placement.

WANT TO KEEP YOUR OPTIONS OPEN?

With our Combined Diploma programme, you can develop your skills in two subjects (one as a Double Diploma 2 days a week and 1 as a Single Diploma 1 day a week – a further day is spent on placement in your chosen industry).

WHAT YOU'LL NEED

We usually ask for 4 GCSEs at grade 4 or above, including English and Maths (depending on your results, you might need to start off on a level 1 or 2 course). If you get a grade 3 or below in your English and/or Maths you may still gain a place, but you'll need to re-sit these subjects as part of your study programme (but the good news is it won't take you any longer to do it).

What are you waiting for?

BLACKPOOL.AC.UK/LEAVERS

Check out our Level 3 Triple Diplomas and start your application today.

Meet Emily...

**FORMER ST GEORGES STUDENT
EMILY EXPLAINS WHY SHE CHOSE
B&FC TO HELP HER BEGIN THE
JOURNEY TO AN ENGINEERING
CAREER IN THE RAF.**

“The College just had better facilities and a bigger selection of what you could do. And it’s a really good timetable – I just recently started a job so it works out well.

It’s more hands on and less stressful than A Levels and you’ve not got an exam at the end. I just feel like you can showcase your knowledge in assignments more.

There are probably girls out there who are thinking about doing engineering and worried there aren’t going to be many girls there. But they should just do it. We’ve all been really close as a group.”

EMILY GRACE-BOLTON

Electrical and Electronic Engineering –
Level 3 Triple Diploma

“More hands on”

T-LEVELS

➔ 80% CLASS-BASED

➔ 20% INDUSTRY

If you're academically strong but you have a skilled career route in mind, a T Level will give you a head start into your chosen industry.

T Levels are a new 2-year qualification that lead to university, skilled employment and higher/degree apprenticeships. They've been designed with employers and businesses to provide the skills that industry needs, which means you get to play a key part in shaping the future of the UK economy!

WHY DO A T LEVEL?

A T Level is equivalent to doing three A Levels, but along with the 168 UCAS points needed for university you'll develop high level technical skills via a relevant 315-hour industry placement. That means around 20% of your time is spent in industry, getting real on-the-job experience for your future career.

WHAT'S COVERED

Along with your industry placement, relevant theory and practical sessions will ensure you develop the exact knowledge and skills needed to succeed in your chosen industry. Your T Level is also made up of regular progress meetings, career planning, employability skills, and English and maths at the appropriate level.

WHAT ABOUT ASSESSMENT?

You'll be pleased to know it's not all exams either – you'll also have skills tests. These will combine to give you an overall grade of pass, merit or distinction.

WHAT YOU'LL NEED

The entry requirements are the same as for A Levels - 5 GCSEs at grade 5 or above, including English and Maths.

What are you waiting for?

BLACKPOOL.AC.UK/LEAVERS

Check out our T Level qualifications and start your application today.

A portrait of Molly Grennell Walker, a young woman with long dark hair, smiling. She is wearing a black hoodie and a lanyard with a badge. The background is dark and out of focus.

meet molly...

**MOLLY, WHO WENT TO ST MARYS,
IS ONE OF THE FIRST TO DO
THE NEW DIGITAL T LEVEL AND
SHE'S LOVING LEARNING 'HOW
EVERYTHING WORKS'.**

"I chose this course because I want to be a game developer and I definitely think it will give me the skills I need. With A Levels, you're learning completely different subjects whereas with a T Level all the subjects relate to each other.

We do quite a bit of practical stuff like programming and building machines and at the end of the course we'll be doing our industry placement.

The facilities are amazing - they've offered us lots of free resources and if you need any equipment out of College they can support you with that too. It's really good."

MOLLY GRENNELL WALKER

T Level - Digital Production, Design and Development

*"The Facilities
are amazing"*

APPRENTICESHIPS

AT B&FC

An apprenticeship is the best of both worlds: you can start paid employment and work towards a nationally-recognised qualification at the same time...

If you're keen to start your career straight away, an apprenticeship is for you. You'll be earning a wage for doing a real full-time job, learning skills in a real work environment. Most of your training is 'on-the-job', however 20% of your apprenticeship (equivalent to one full day a week) will be 'off-the-job'.

WHAT TO EXPECT

An apprenticeship usually takes around 18 months to complete. Learning is mostly hands on but 'off-the-job' training might include regularly or occasionally attending College. English and maths (at the relevant level) is also included. Assessment is by a combination of work observations, tests and a portfolio of evidence.

WHY B&FC?

The great thing about an apprenticeship is that it's personalised to you and based on your unique abilities and career goals. You'll also get lots of support from your own personal skills coach. Afterwards, you could continue to the next level, maybe doing a degree or higher apprenticeship (a degree-level qualification that your employer pays for you to do at work).

WHAT YOU'LL NEED

You should have a passion for your subject and be willing to learn. Ideally, you'll also need a relevant position but if you don't have one, we can support you to find the right role. We might recommend doing a pre-apprenticeship or a full-time course first, as this can help you to develop the experience, skills and qualities that employers look for.

What are you waiting for?

Connor...

**SKILLBUILD COMPETITION
WINNER AND FORMER ST GEORGES
STUDENT CONNOR IS LOVING
HIS APPRENTICESHIP WITH ST
ANNES-BASED FIRM ATKINSONS
TRADITIONAL JOINERY.**

“I wanted to be a joiner from school. I did level 2 full-time at the College and then went on to a level 3 apprenticeship, doing four days a week at work and one day at College.

Joinery’s a lovely trade to be in – it’s difficult at times but it’s so rewarding and there’s plenty of support. I used to be quite shy, but I wouldn’t say I am now.

I would say to go for it because you won’t regret it. When you take a step back with the customer and see what you’ve built, and they’re thanking you, it’s a lovely feeling.”

CONNOR GELDER

Level 3 NVQ Architectural
Joinery Apprenticeship

“It’s so
rewarding”

SUBJECT CHOICES

We work with over 1,800 employers, who support course design and delivery, and provide industry placements.

AUTOMOTIVE AND MOTORSPORT

The North West is the UK's second biggest region for automotive manufacture. Opportunities also exist in service and repair or even working for a motorsport team.

Career routes:

- + Vehicle Technician
- + Motor Vehicle Fitter
- + Motorsport Engineer

Employer partners:

BUSINESS AND ENTERPRISE

Lancashire's thriving financial and professional services sector supports more than 5,000 businesses, from accountants through to large business process outsourcing organisations.

Career routes:

- + Business Manager
- + Accountant
- + Project Manager

Employer partners:

CATERING AND HOSPITALITY

The Fylde Coast is renowned for its expertise in the catering and hospitality industry. We deliver the skills, knowledge and experience needed for when the economy springs back to life.

Career routes:

- + Head Chef
- + Craft Baker
- + Hospitality Supervisor

Employer partners:

CHILDREN, YOUNG PEOPLE AND FAMILIES

The childcare sector supports rewarding careers in nurseries, children's centres and primary schools with additional study and training facilitating the move into management or teaching.

Career routes:

- + Early Years Practitioner
- + Support Worker
- + Early Years Teacher

Employer partners:

COMPUTING AND DIGITAL TECHNOLOGIES

The North West is home to an increasing number of technology companies, with opportunities also available in organisations across all industries using IT.

Career routes:

- + Games Programmer
- + Software Developer
- + Web developer

Employer partners:

CONSTRUCTION

Lancashire's thriving construction industry is driven by major commercial and residential developments, supported by leading employers as well as thousands of small companies.

Career routes:

- + Project Manager
- + Quantity Surveyor
- + Joiner

Employer partners:

CREATIVE ARTS, DESIGN AND PHOTOGRAPHY

In 2019, approximately 5.3 million jobs in the Creative Arts sectors accounted for 16% of all UK jobs. Lancashire alone has 4,500 creative and digital businesses.

Career routes:

- + Graphic Designer
- + Art Director
- + Photographer

Employer partners:

ENGINEERING

Lancashire is one of the UK's leading areas for advanced manufacturing and engineering. A current skills shortage means there are excellent career opportunities available.

Career routes:

- + Electrical Engineer
- + Manufacturing Engineer
- + Aerospace Engineer

Employer partners:

HAIR, BEAUTY AND RELATED THERAPIES

The hair and beauty industry is experiencing a growth period and exciting opportunities exist with major salons and spas, in product retail and in the film/TV industries.

Career routes:

- + Hairdresser
- + Beauty Therapist
- + Nail Technician

Employer partners:

HEALTH AND MEDICAL PROFESSIONS

Health and social care is Lancashire's largest employment sector, employing 16% of the workforce. A rising demand for services is creating a range of employment opportunities.

Career routes:

- + Nurse
- + Paramedic
- + Midwife

Employer partners:

MARITIME AND NAUTICAL

The maritime sector offers a range of exciting careers both at sea and ashore, with generous benefits and starting salaries as high as £34,000.

Career routes:

- + Merchant Navy Deck Officer
- + Merchant Navy Engineering Officer
- + Electro-Technical Officer

Employer partners:

MEDIA PRODUCTION, FILM AND TELEVISION

The North West offers increasing opportunities in this field, with key clusters such as MediaCityUK home to 755 companies specialising in technology, media and telecoms activity.

Career routes:

- + AV Equipment Operator
- + Online Content Producer
- + Camera Operator/Editor

Employer partners:

PERFORMING ARTS AND MUSIC

We equip tomorrow's talent with the skills, knowledge and experience needed for when the music and entertainment industry springs back to life.

Career routes:

- + Actor
- + Musician
- + Director

Employer partners:

PUBLIC SERVICES (UNIFORMED)

There are more jobs available in public services than any other career path in the North West, with good salaries, progression and job security the norm.

Career routes:

- + Police Officer
- + Army/Naval Officer
- + Firefighter

Employer partners:

SCIENCE

Scientists are among the most highly paid professionals in the North West and over the next decade, R&D investment in life sciences will create 3,200 skilled jobs.

Career routes:

- + Biomedical Scientist
- + Veterinary Nurse
- + Forensic Scientist

Employer partners:

SPORT, LEISURE AND RECREATION

The North West has a vibrant sports heritage, for Premier League football in particular. Consequently, talented physiotherapists, nutritionists and fitness coaches are in high demand.

Career routes:

- + Leisure Manager
- + Exercise Scientist
- + Sports Coach

Employer partners:

TRAVEL AND TOURISM

We deliver the skills, knowledge and experience needed for when Lancashire's visitor economy and Britain's most popular seaside resort – Blackpool – spring back to life.

Career routes:

- + Resort Representative
- + Travel Influencer
- + Air Cabin Crew

Employer partners:

A portrait of Elise Strother, a young woman with long dark hair, wearing black-rimmed glasses, a leopard-print top, and a light-colored blazer. She is looking directly at the camera with a slight smile.

Meet Elise...

ELISE STROTHER MADE THE LEAP FROM LEVEL 3 TO DEGREE AT B&FC AND HAS HER SIGHTS SET ON BEING A BUSINESS CONSULTANT OR RUNNING HER OWN BEAUTY BUSINESS.

“I’m really enjoying it. Quite a lot of stuff has actually fed in from the level 3 programme – we’re just going into a bit more in depth so it’s not overwhelming.

There are just 20 in my class so it’s a really small group and it’s so much better because you have more discussions – it’s not like there are hundreds of you in a lecture theatre just being spoken at – there are more group activities to learn things.

And my timetable is condensed to just one day, which means I can still work and earn money as well as getting my studies done.”

ELISE STROTHER

Foundation Degree Business Management

“It’s not
overwhelming”

APPLY NOW

TO SECURE YOUR PLACE IN THE B&FC COMMUNITY

1. COMPLETE AN APPLICATION

As soon as you've made your decision apply online by finding your chosen course and clicking 'Apply'.

2. ATTEND AN INTERVIEW

The next step is to attend an interview, which is your chance to chat with a tutor and ask them any questions about your chosen course. It also allows us to make sure you're on the right path to achieving your career goals.

3. GET CONFIRMATION OF YOUR PLACE

Following your interview, we'll write to you with full details of your offer, including any entry requirements you'll need to meet.

4. TAKE A CLOSER LOOK

We will invite you to our virtual and/or in-person open events, where you can find out more about your chosen subject area and speak to an industry specialist about the route to your future career.

5. ACCEPT YOUR PLACE

You're nearly there! You just need to contact our Admissions Team to accept your place, providing your full name, date of birth, student ID (at the top of your offer letter) and course title.

6. ENROL

Finally, to secure your place you need to enrol. We'll be in touch with everything you need to know nearer the time.

APPLYING FOR AN APPRENTICESHIP?

Just follow the process opposite. If you don't have a relevant position, you'll need to register on GetMyFirstJob.co.uk and start to look for a suitable role. In the meantime, we'll support you to get work-ready and invite you to complete assessments in English, maths and ICT.

Keep an eye out during Year 11.

Our School Liaison Team can support you to make the right decision about your next steps. Find out more about how they can help you here:

BLACKPOOL.AC.UK
/LIAISON

Stay in touch

At any stage of the application process, we're here to help and advise – just contact us. And if your contact details change, don't forget to let us know!
