

High Achievers

**St George's School: A Church of England
Academy.**

**'Be devoted to one another in love. Honour one
another above yourselves'**

Romans 12:10

At St. George's School, we recognize the unique qualities and diverse abilities of each pupil in our care. Guided by the values of wisdom, hope, kindness, dignity, community, and humility, we strive to provide a learning environment that enables all pupils to reach their full potential, regardless of their socio-economic background. Our commitment to academic excellence is reflected in a curriculum that challenges and inspires all pupils, including those who demonstrate exceptional ability.

We offer a range of opportunities for pupils to develop their skills and interests through lunchtime clubs and our extensive Elective program, where pupils can participate in a range of sporting, academic, musical, and vocational experiences. Our High Achievers rationale is based on current academic research and our belief that every pupil has the ability to go beyond their best when given a challenging and stimulating environment and the right mindset.

At St. George's, we understand that "very able" pupils are those who demonstrate high-level performance in their pursuits, and that success requires more than just intelligence and cognitive ability. It also requires dedication and hard work. That's why we believe that every pupil's potential is limitless and not determined by innate ability. Our High Achievers are therefore identified based on their academic success and progress through effort and commitment.
