

Addition Problems

Solve the problems that are addition. The ones that are not addition problems you don't need to do.

1. Eddie has 45 football cards and Imogen has 34. How many do they have altogether?
2. Daisy buys three items from the shop. An apple for 35p, a banana costing 30p and an orange for 25p. How much does this cost in total?
3. Kelly is collecting badges. She has 37 of them. How many more does she need to have 50 badges in her collection?
4. There are 26 children in Year 1 and 28 children in Year 2. Both classes are together in the hall. How many children are in the hall?
5. It takes 15 minutes to mix the ingredients for some biscuits. They then have to bake in the oven for 25 minutes. How long does it take to make the biscuits in total?
6. The sunflower was 41cm tall. It then grew another 15cm. How tall is it now?
