

African Animals

- This resource is taken from the Hunted theme from the LPDS Curriculum Support Materials.
 - See the Contextual Learning section for more information.

Graph showing the average male mass of different African animals

- What is the average mass of a male giraffe?
- What is the average mass of a male white rhino?
- How many average male giraffes would have the same mass as one average male African elephant?
- What is the difference in mass between an average male zebra and an average male lion?
 - Why is this a difficult question to answer?
- Would an average male African elephant be lighter or heavier than an average male white rhino, hippopotamus and giraffe combined?
 - By approximately how many kilograms?
