

## Check These Out!

- Identify the inverse calculation for each of these.
- They have been presented horizontally so that the working out is not easily identifiable.
- Which calculations have been worked out incorrectly?
- What should the correct answers be?

Calculation	Inverse check	Corrected calculation
$3672 + 2369 = 6031$		
$256.4 + 367.2 = 613.6$		
$843 - 484 = 361$		
$8422 - 4567 = 3855$		
$346 + 725 + 315 = 1286$		
$86.4 - 48.7 = 38.7$
