

Choose a Strategy 2

Look at the following calculations. Choose the ones which require a formal written method and calculate the answers.

$4 + 3.8$	$7.5 + 7.5$	$3.4 + 5.3 - 1.4$
$7.4 - 3.6$	$34.62 - 18.35$	$554 + 198$
$3847 + 2997$	$8.3 - 6.8$	$10 - 8.76$
$7.5 + 5.23$	$16.58 + 35.76$	$4863 - 798$
$5.9 + 4.2$	$38067 + 4576$	$10.5 - 6.9$

Choose an appropriate strategy for the calculations that are left.
