Football Data
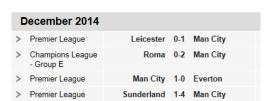

Need: Football results

- Look at the results of the matches from the previous Saturday's Premier League.
  - Calculate the mode, median and range of goals scored in each game.

- Choose one team.
  - Find out how many goals this team has scored in each game of the season so far.
  - Calculate the mode, median and range of goals per game.
  - How could this data help you predict how many goals this team will score in its next match?
