

How Long Does It Take?

Need: Timer/stopwatch (that shows whole minutes and seconds only), task cards

- This activity is designed to help children understand different lengths of time.
- Children should estimate the time a task will take before timing it exactly and recording their own results and then estimating the next task.

Task	Estimate	Actual time
Write your name 10 times.		
Walk around the playground 5 times.		
Get changed into your PE kit.		
Neatly cut out the 5 shapes on the sheet.		
Eat your dinner sensibly.		
Fill a bucket of water using a cup.		
Count to 100.
