

## Scale Scalextric

- Scalextric cars are made at 1:32 scale.

- This means that something 1cm long on a Scalextric car would be 32cm long on the real size car.
- These are the sizes of parts on the Scalextric car. Calculate the size of the parts on the real life car.

Car part	Scalextric car	Real car
Tyre diameter	2cm	
Windscreen length	4cm	
Car width	5cm	
Car height	3cm	
Number '42' diameter	$1\frac{1}{2}$ cm
