

Using the Inverse

- Use a multiplication calculation to check these division calculations. Sort the calculations into correct solutions and incorrect solutions.

| | | |
|--------------------------------------|--|--|
| $162 \div 6 = 27$ | $540 \div 4 = 135$ | $1622 \div 7 = 246$ |
| $448 \div 8 = 56$ | $2620 \div 6 = 435$ | $6580 \div 10 = 658$ |
| $740 \div 5 = 148$ | $810 \div 9 = 89$ | $1284 \div 3 = 428$ |
| $495 \div 5 = 98$ | $2710 \div 10 = 217$ | $801 \div 9 = 89$ |

- Check your findings with a partner. Give explanations to justify your choice.
