

Next week in our science lesson, we will be discussing what the children know about the different seasons. You could talk to your child at home about:

- The names of the 4 seasons
- Which season we are currently in
- What might happen during the different seasons
- How we prepare for each season

You could draw pictures of each season or do some writing about them.

Our new RE topic is 'Belonging' and we will begin to explore the different groups we may belong to. Children will then move on to focus on the sacrament of Baptism. If your child has attended a Baptism or Christening, it would be lovely for them to be able to share their experiences of this with their friends. If possible, you could share any photos you have via Dojo for the children to discuss in the coming weeks.

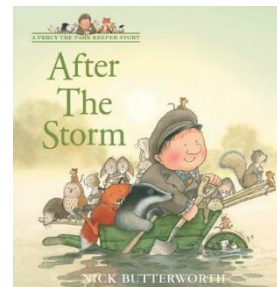

We have re - grouped the children for phonics and sent home reading books accordingly. If your child does not come home with a reading book in their folder, they will have a sheet with words and sounds to practise instead. Please regularly read at home with your child to support them with furthering their phonetic knowledge.

If your child has read 4 times or more, you can award them a Dojo point for reading.

Next week we will focus on finding one less than a given number in Maths. We will then move on to comparing groups of objects to find which has more or fewer. We are also learning to count in 2's. You can support your child at home by counting things in 2's together. There are also of chants and songs on YouTube to support the teaching of this.

Our focus for Literacy next week will be 'After the Storm'. We will sequence the story and design a new home for Percy the Park Keeper to build for the animals. You could read this story together or listen to it on YouTube.
