

Hello Year 4!
Today we are going to be talking about 2D
shapes!

LO: To identify and sort triangles.

Let's start with a warm up!

Can you name each of these polygons?

Today we are focussing on triangles.

What do you already know about triangles?

Make a note of everything you can think of, then watch this video to find out more:

<https://www.bbc.co.uk/bitesize/topics/zvmxsbk/articles/zggsfrd>

This is an equilateral triangle.

All 3 of its sides are equal in length.

The angles inside are also equal.

This is an isosceles triangle.

2 of its sides are equal in length.

2 of its angles inside are also equal.

This is a scalene triangle.

All of its sides are a different length.

The angles inside are also all different.

This is a right angled triangle.

One of its interior angles is a right angle.

Write the type of triangle.

1.

2.

3.

4.

5.

6.

7.

8.

Label these triangles.

**Then complete the
triangle sorting
activity.**
