”Love one another as Jesus loved us” (John 13 v 34-35)

LANCASHIRE COUNTY COUNCIL

Diocese of Blackburn

St. John's C.E. (V.A) School, Cliviger

‘Learn, Pray, Care & Play’

Our church school through its Christian values and caring community seeks to inspire each individual to achieve and grow.

St John’s C.E. Primary School, Cliviger

Online Safety Policy

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Date created: [October 2025]

Next review date: [October 2026]

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of St John's C.E. Primary School, Cliviger to safeguard members of our school community online in accordance with statutory guidance and best practice. It has due regard to all relevant legislation and guidance. It operates in conjunction with other school policies (social media policy, acceptable user policy, safeguarding and child protection policy, anti-bullying policy, PSHE policy, staff code of conduct, behaviour policy, disciplinary policy, health and safety policy, computing policy, respect for all policy).

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

St John's C.E. Primary School, Cliviger will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

The breadth of issues classified within online safety is considerable and ever evolving, but can be categorised into four areas of risk (Keeping Children Safe in Education, 2025, DfE):

content: being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.

contact: being subjected to harmful online interaction with other users; for example: child to child pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.

conduct: online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and nonconsensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying and child-on-child abuse), and

commerce: risks such as online gambling, inappropriate advertising, phishing and or financial scams.

The school's online safety coordinator is Mrs Healey supported by the Online Safety Governor and the Computing Subject Leader. Our school online safety policy has been written by the school and agreed by governors.

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff.
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Online Safety Lead.
- The headteacher/senior leaders will work with the responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy e.g. by asking the questions posed in the UKCIS document "Online Safety in Schools and Colleges – questions from the Governing Body".

This review will be carried out by the Full Governing Body whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead / Online Safety Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)

- ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually. (The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor) - in-line with the DfE Filtering and Monitoring Standards
- reporting to relevant governors group/meeting
- receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards
- membership of the school Online Safety Group.

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety).

Online Safety Lead/Computing Subject Lead

The Online Safety Lead will:

- lead the Online Safety Group
- work closely on a day-to-day basis with the Designated Safeguarding Lead (DSL)
- receive reports of online safety issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future online safety developments
- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents

- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with technical staff, pastoral staff and support staff (as relevant)
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
    - content
    - contact
    - conduct
    - commerce.

Curriculum Leads

Curriculum Leads will work with the DSL/OSL to develop a planned and coordinated online safety education programme.

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they follow all relevant guidance and legislation including, for example, Keeping Children Safe in Education and UK GDPR regulations
- all digital communications with learners, parents and carers and others should be on a professional level and only carried out using official school systems and devices
- they immediately report any suspected misuse or problem to the DSL/OSL for investigation/action, in line with the school safeguarding procedures
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies

- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media
- they adhere to the school's technical security policy, with regard to the use of devices, systems and passwords and have an understanding of basic cybersecurity
- they have a general understanding of how the learners in their care use digital technologies out of school, in order to be aware of online safety issues that may develop from the use of those technologies
- they are aware of the benefits and risks of the use of Artificial Intelligence (AI) services in school, being transparent in how they use these services, prioritising human oversight. AI should assist, not replace, human decision-making. Staff must ensure that final judgments, particularly those affecting people, are made by humans, fact-checked and critically evaluated.

IT Provider

If the school has a technology service provided by an outside contractor, it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from the local authority
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to DSL/OSL for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person.
- monitoring systems are implemented and regularly updated as agreed in school policies.

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology

- should avoid plagiarism and uphold copyright regulations, taking care when using Artificial Intelligence (AI) services to protect the intellectual property of themselves and others and checking the accuracy of content accessed through AI services
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way. The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school.

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group has the following members:

- Designated Safeguarding Lead
- Online Safety Lead
- Online safety governor
- Technical staff

Members of the Online Safety Group will assist the DSL/OSL with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage

- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the acceptable use policies.

Reporting

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. All incidents of safeguarding will follow the procedures set out in the safeguarding policy. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.

- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm the incident must be escalated through the agreed school safeguarding procedures
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police;Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions (as relevant)
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
    - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
    - staff, through regular briefings
    - learners, through assemblies/lessons
    - parents/carers, through newsletters, school social media, website
    - governors, through regular safeguarding updates
    - local authority/external agencies, as relevant (The Ofsted Review into Sexual Abuse in Schools and Colleges suggested "working closely with Local Safeguarding Partnerships in the area where the school or college is located so they are aware of the range of support available to children and young people who are victims or who perpetrate harmful sexual behaviour"

Online Safety Education Programme

- Online safety is embedded throughout the curriculum. There is a planned online safety curriculum for all year groups using the Purple Mash Scheme of Work and the PSHE Scheme of Work
- Lessons on online safety will make use of the Purple Mash 2BeSafe scheme of work and involve opportunities for discussion about relevant issues
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas
- It incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.

- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information (including where the information is gained from Artificial Intelligence services)
- learners should be taught to acknowledge the source of information used and to respect copyright / intellectual property when using material accessed on the internet and particularly through the use of Artificial Intelligence services
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites / tools (including AI systems) the learners visit
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- the training will be an integral part of the school's annual safeguarding, data protection and cyber-security training for all staff and will be updated annually
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Online Safety Lead and Designated Safeguarding Lead (or other nominated person) will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead/Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.
- Staff are required to adhere to the the staff code of conducts and acceptable user agreements.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This includes

- participation in school training / information sessions for staff or parents.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers.

Technology

Filtering & Monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours.

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility.

The filtering and monitoring provision is reviewed annually by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider. The computing subject lead and the chair of governors will meet annually to review this provision and report back to the governing body.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of the Online Safety Lead, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using SWGfL Test Filtering

Filtering

The school has filtering systems in place (Netsweeper) provided through the internet service provider (BT):

- a member of the SLT and a governor, are responsible for ensuring these standards are met. Roles and responsibilities of staff and third parties, for example, in-house or third-party IT support are clearly defined
- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective. These are acted upon in a timely manner, within clearly established procedures
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.

There are regular checks of the effectiveness of the filtering systems . Checks are undertaken across a range of devices at least termly and the results recorded and analysed to inform and improve provision. The DSL and Governor are involved in the process and aware of the findings

- devices that are provided by the school have school-based filtering applied irrespective of their location
- younger learners will use child friendly/age-appropriate search engines
- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice. If necessary, the school will seek advice from, and report issues to, the SWGfL Report Harmful Content site.

Monitoring

The school has monitoring systems in place, agreed by senior leaders and technical staff, to protect the school, systems and users. The system in place in school is provided by Securus:

- Securus monitors all network use across all its devices and services
- any urgent and serious reports result in immediate notifying of senior leaders in school by Securus
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that monitoring is in place
- there are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention
- management of serious safeguarding alerts is consistent with safeguarding policy and practice
- the monitoring provision is reviewed at least once every academic year and updated in response to changes in technology and patterns of online safety incidents and behaviours. The review should be conducted by members of the senior leadership team, the designated safeguarding lead, the online safety lead and technical staff. It will also involve the responsible governor. The results of the review will be recorded and reported as relevant
- devices that are provided by the school have school-based monitoring applied irrespective of their location.
- monitoring enables alerts to be matched to users and devices.

Technical Security

Responsibility for technical security resides with SLT who may delegate activities to identified roles:

- a documented access control model is in place, clearly defining access rights to school systems and devices. This is reviewed annually. All users (staff and learners) have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details. Users must immediately report any suspicion or evidence that there has been a breach of security
- password policy and procedures are implemented and are consistent with guidance from the National Cyber Security Centre
- all school networks, devices and system will be protected by secure passwords
- the administrator passwords for school systems are kept in a secure place

- there is a risk-based approach to the allocation of learner usernames and passwords
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud
- the IT technicians is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- systems are in place that prevent the unauthorised sharing of personal / sensitive data unless safely encrypted or otherwise secured.

Mobile technologies

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school polices including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

Social media

In accordance with the school social media policy. The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues
- clear reporting guidance, including responsibilities, procedures, and sanctions
- risk assessment, including legal risk
- guidance for learners, parents/carers.

School staff should ensure that:

- no reference should be made in social media to learners, parents/carers or school staff
- they do not engage in online discussion on personal matters relating to members of the school community
- personal opinions should not be attributed to the school
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- they act as positive role models in their use of social media.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies. Guidance can be found on the SWGfL Safer Remote Learning web pages and in the DfE Safeguarding and remote education
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images

should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images

- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed
- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy
- learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Social media
- Online newsletters

The school website is managed/hosted by Schudio. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation. (See the school data protection policy).

Cyber Security

The DfE Cyber security standards for schools and colleges explains:

"Cyber incidents and attacks have significant operational and financial impacts on schools and colleges. These incidents or attacks will often be an intentional and unauthorised attempt to access, change or damage data and digital technology. They could be made by a person, group, or organisation outside or inside the school or college and can lead to:

- safeguarding issues due to sensitive personal data being compromised
- impact on student outcomes
- a significant data breach
- significant and lasting disruption, including the risk of repeated future cyber incidents and attacks, including school or college closure
- financial loss
- reputational damage"

The school has reviewed the DfE Cyber security standards for schools and colleges and is working toward meeting these standards and:

- the school will conduct a cyber risk assessment annually and review each term (in partnership with the IT technicians); the school's governance and IT policies reflect the importance of good cyber security and there are plans in place for dealing with incidents
- staff and Governors receive training on the common cyber security threats and incidents that schools experience; the school's curriculum includes cyber awareness for learners
- the school has a business continuity and incident management plan in place; there are processes in place for the reporting of cyber incidents. All students and staff have a responsibility to report cyber risk or a potential incident or attack, understand how to do this feel safe and comfortable to do so.

The use of Artificial Intelligence (AI) systems in School

Please see the school AI policy for further detail.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

Keeping Children Safe in Education (DfE) 2025

Teaching Online Safety in School (DfE) 2023

Searching, Screening and Confiscation (DfE) 2022

Computer Misuse Act 1990

Data Protection Act 1998

The Data Protection Act 2018:

Freedom of Information Act 2000

Communications Act 2003

Malicious Communications Act 1988

Regulation of Investigatory Powers Act 2000

Trade Marks Act 1994

Copyright, Designs and Patents Act 1988
