Car Seats and Safety

Dear Parents,

Following staff training last night, LCC have made us aware of the legal requirements when we are transporting children. As you know, we attend a lot of events where staff transport the children because this lowers costs and ensure lots of children can participate in a wide range of activities and experiences.

A child should be using a car seat until they are either 135cm tall or the age of 12.

Today, I asked staff to measure every child in their class, so we know who requires a booster seat. When school staff transport child, they are liable if the child is not on a booster seat as the driver. I need to ensure that we are following all legal requirements.

For future events, if staff are transporting, we would ask that you send in a booster seat for your child or you may choose to transport them yourself. We will not be able to take them to events if you do not provide a booster seat.

On the letter, about the event, on the return slip it will ask you to indicate whether you are sending in a booster seat or choosing to transport your child yourself. This way we can ensure all children are safe and all legal requirements are covered for our school staff.

Thankyou for your continue co-operation,
N.R.Healey
