

Dear Parents,

The English is a different format to the work which has previously been set. Each week is split into four lessons which focus on reading, writing, spellings or grammar. Your child should complete one activity per day and some of the activities will take as little as ten minutes to complete. The reading material which is needed can be found at the end of the work pack. Again, you do not need to print this out work pack out; answers can be completed on pieces of paper.

The Maths is a different format to the work previously set as it has been placed into a Bingo grid. I know many children are using My Maths so please continue to do so.

The transition activities are the same as last time as I am aware some families were not starting these until after half term. If you have completed some of these already, please complete the ones which you haven't. If you have completed them all then please go into more detail or even take a walk to the school so your child can see it.

Finally, I have uploaded another Home Learning Menu with lots of topic ideas attached for your child to complete (only one page this time as they have the transition activities to complete). Please note they do not need to complete every task. Please take pictures of your creations and send me them via office@stjohntheevangelist.org.uk or the school's Facebook page.

Thank you very much to those of you who have already sent pictures for the Leavers' Presentation. If you haven't, please could you do this ASAP by emailing pictures to the email above, thank you.

Hopefully, I will be seeing everyone soon but until then, keep safe and enjoy your time together.

Mrs Henderson 😊
