

Year 3 Maths Bingo

Hello everybody!

Here are your Maths Bingo challenges for the next 2 weeks.

I have been looking at what you have been doing so far on social media and I think that you are all doing a fabulous job!

Keep trying hard and remember; Maths is all around us every day. Can you spot it?

Keep safe, keep working hard and keep having fun!
Love, Mrs Nelson x

Can you find any patterns in the 2, 10 and 5 times table?

Remind yourself of, and practise your number bonds to 20, 50 and 100.

Can you measure how big the rooms in your house are? What will you use to measure? Which unit of measure would you use?

Log on to MyMaths and complete 4 tasks.

Play one of the indoor maths games suggested by Third Space Learning.

These can be found here:

<https://thirdspacelearning.com/blog/fun-maths-games-activities-for-kids/#1-3-best--indoor-maths-games-your-kids-can-play-at-home->

Set up and play a battle with a friend on TTRS.

Have a go at this 'Hundred Square' problem. This will get your brain working.

How will you work it out..?

Complete a tally of vehicles that drives past your house (or something different if you would prefer!)

Use your tally chart to create a graph to show your data.

Write down all odd and even number to 30.

Do you notice anything?

Could you tell us any rules that there might be?
