

Dear Parents,

I hope you are all well and keeping safe. I can't express how much I am missing the children - seeing their lovely smiles, receiving their warm hugs and listening to their funny little stories. Please give them a big hug from me.

Here are the resources for the next 2 weeks' home learning tasks.

As last time, I have included for English wk1-5 activities taken from the Maths Mastery website. Within this there are reading, spelling, grammar and writing activities for the children to complete.

For Maths, I have gone back to using the Maths Mastery website and have uploaded the parents' guide and the pupil work here for multiplication and division. I would definitely advise the use of equipment to embed this, e.g. buttons, shells, pasta, etc... Other maths activities/games are available at: <https://www.topmarks.co.uk/> which will support this learning.

Home Challenges: Activities are all linked to 'The Seaside'. How many watery challenges can you complete?

Thank you for your continued support throughout this difficult time. Keep up the excellent home learning - I'm so proud of you all.

Continue to stay safe and take care.

Mrs Peacock ☺
