

Year 4 Maths Bingo

Your maths for the next two weeks is to complete as many of these challenges as you can.

Please take pictures of them so your parents can share what you have been doing on the Facebook and Twitter pages.

Take Care and Stay safe. We miss you all lots,

Mrs Smith and Mrs Edwards x

Find items around your house that are symmetrical and identify where the lines of symmetry would be.

Make a list of items that you can find around your house.
Estimate the height or length of these in centimetres, then use a ruler to measure them.
Were your estimates close?

Test your times tables knowledge with a member of your family.

Set a timer for 1 minute and see how many you can answer correctly in that time.

Explore the maths games on the TopMarks website

https://www.topmarks.co.uk/mathsgames/7-11-years/ordering-andsequencing-numbers Make a poster of a set of times tables you are not sure of. Display in your house and try and practise these everyday.

When baking or cooking, use a set of scales to accurately measure out the ingredients (See D&T activity on home learning task sheet)

Make sure you keep practising your methods for the 4 operations (addition, subtractions, multiplication and division)

Use the Target Your Maths

Use the Target Your Maths work books to find some calculations to complete.

Go on TTRS and battle against a friend.

Find the change from £10 of these amounts:

- a) £8.55
- b) £5.90
- c) £3.75
- d) £6.20
