

Dear Parents,

English follows the same format as last time with a Book BINGO and Writing BINGO. For Maths, children will still have 2 weeks of learning to complete from the Maths pack which was uploaded with the last set of home learning. Please remember there are also daily lessons available at Oak National Academy and BBC Bitesize.

You will find Transition Activities for Secondary School have been provided. Please encourage your child to complete these and talk to you about starting Year 7 in September. We would usually be completing activities like this in school as well as having visits from the staff from the secondary school. As I do not know what transition will look like this year, starting to talk about it at home will be extremely beneficial for your child.

Finally, I have uploaded another Home Learning Menu with lots of topic ideas attached for your child to complete (only one page this time as they have the transition activities to complete). Please note they do not need to complete every task. Please take pictures of your creations and send me them via office@stjohntheevangelist.org.uk.

Hopefully, I will be seeing everyone soon but until then, keep safe and enjoy your time together.

Mrs Henderson 😊
