<b>Hands/Face/Space</b>		2	4	<b>M</b>	<p><b>Hands</b> - Washing your hands with soap and water for at least 20 seconds, or using hand sanitiser, regularly throughout the day will reduce the risk of catching or passing on the virus.</p> <p><b>Face</b> - Coronavirus is carried in the air by tiny respiratory droplets that carry the virus. Face coverings reduce the spread of these droplets, meaning if you're carrying the virus you're less likely to pass it on when you exhale. <b><u>Find out how to make your own face covering on the gov.uk website.</u></b></p>

<b>Tracing close contacts and isolation</b>	Close contacts in schools are now identified by NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.  From 14 December 2021, adults who are fully vaccinated and all children and young people aged between 5 and 18 years and 6 months identified as a contact of someone with COVID-19 are strongly advised to take a LFD test every day for 7 days and continue to attend their setting as normal, unless they	3	4	M	All travellers arriving into the UK will need to isolate and get a PCR test by 'day two' after arrival. ## Outbreak Management Plan

<b>Date Adopted</b>	July 2021
<b>Date Reviewed</b>	
<b>Next Review Date</b>	July 2022
<b>Version</b>	1.0
<b>Review Cycle</b>	Annual
<b>Publication Scheme</b>	Trust Website Local Schools' Websites

This Outbreak Management Plan is based on the contingency framework for managing local outbreaks of COVID 19 and the school's/college's operational guidance from step 4, published by the Department for Education (DfE).

We will only implement some, or all, of the measures in this plan in response to recommendations provided by our local authority (LA), director of public health (DsPH), Public Health England (PHE) health protection team or the national government.

It may be necessary to implement these measures in the following circumstances:

- To help manage a COVID-19 outbreak within the school/college
- If COVID-19 infection rates in the community are extremely high, and other measures have failed to reduce transmission
- As part of a package of measures responding to a 'variant of concern' (VoC)

The Trust will have an up-to-date risk assessment in place, it will be communicated to the whole staff team; appropriate information will be shared with students, parents/carers, visitors, and any other people impacted by the school/college activities.

The Senior Leadership Team will review the risk assessment each month to make sure the measures included are providing the best level of protection available, whilst allowing the school/college to run in a way which will prioritise student's education and growth.

The Trust will have arrangements in place so it can re-introduce measures, up to and in line with the Summer 2021 COVID-19 risk assessment. This may include:

- Reintroduction of face coverings in communal areas
- Adhering to national guidance on the reintroduction of shielding which would apply to those on the shielded patient list (SPL). We will speak to individuals required to shield about additional protective measures in school/college or arrangements for home working or learning
- If recommended to reduce mixing between groups, we would:
  - Reintroduce bubbles
  - Have separate entrances/exits for bubbles
  - Deliver lunches to classrooms
  - Separate rota for breaks and lunches
  - Timetabled use of specialist rooms
  - Reintroduce 'maximum capacity' notices for all communal areas
- If recommended, we would limit:
  - Residential educational visits
  - Transition days
  - Parents coming into school/college
  - Non-essential visitors coming into school/college
  - Live performances

As well as increasing the level of controls, the measures will include providing high quality remote education where students are not able to attend. The school will continue to provide meals or lunch parcels for students eligible for benefits-related free school meals while they are not attending school because of COVID-19 isolation guidelines.

LFD Testing kits will be available on site and supplies will allow for a scaling up of testing if required to allow students and staff to attend. LFD testing is not appropriate for people with symptoms, and they should not attend school/college whilst they have symptoms.

PCR Testing kits will be available for any individual who is symptomatic and may not be able to access a PCR test by other means. Individuals (and where appropriate their parents/carers) should be encouraged to use PCR testing centres where they are likely to get a rapid result. Individuals (and where appropriate their parents/carers) should be strongly encouraged to share the results with the school/college at the earliest opportunity.

- Where a suspected case occurs, the individual will be asked to self-isolate and take a PCR test.
- It is possible when there are confirmed cases the school/college will be asked to provide a list of close contacts, this could lead to the need to take advice from PHE or the Local Health Protection team.
- Where there are multiple cases within a year group, further measures in line with the summer term risk assessment may be re-introduced. Public Health England will be consulted (08000468687 (1)) and any changes in their immediate or publicised guidance will be acted upon. In line with guidance released in August, if the school/college hits the outbreak threshold (General education 5 individuals or 10% of people test positive in a group), advice will be taken, and significant measures introduced.

Where an individual is asked to self-isolate, they will be provided with an isolation number. The number will allow the individual and the school/college to track how long the isolation must be in place.

Individuals who have been informed by Test and Trace to isolate, or have symptoms, must not attend the school/college. The school/college retains the authority to refuse entry to individuals who have symptoms or where the school/college feels their attendance may lead to an outbreak.

### Personal Protective Equipment Matrix

The matrix below details the type (not make) of Personal Protective Equipment which may be suitable for a specific task. Government advice specifically states:

*The majority of staff in education settings will not require PPE beyond what they would normally need for work, even if they are not always able to maintain a distance of 2 metres from others. PPE will only be required in a very small number of cases.*
