Careers Visit to Teesworks

Today, as part of our Personal Development Curriculum, a group of our Year 5 children visited Teesworks Skills Academy.

Teesworks is one of the largest industrial zones in the world, it is home to diverse, sustainable and low-carbon activity.

Our children learned about the site, what they do to combat climate change, and the 'green' jobs of the future at Teesworks that will be available for our pupils to apply for in 20 years time!
