

St. Bernadette Soubirous (1844 - 1879) came from the village of Lourdes in France. When she was 14, she saw a vision of Mother Mary while gathering firewood. Nobody believed her at first until miracles began to happen. She continued to see visions of Mother Mary who wanted people to turn back to God. St. Bernadette became a nun later and suffered from illness until her death at 35. She remained joyful through her sufferings. She is the patron saint of sick people.

Her feastday is on 16 April.

Prayer

Dear Lord Jesus, I want to love You and Mother Mary, like St. Bernadette did. I will always thank God whether I am happy or sad. Amen.
