

Class 6 Tees Barrage Visit

Tees Barrage Visit

Class 6 went to Tees Barrage to learn all about the history and journey of the River Tees.

The children made models of the river using sand, and worked as a team to decide the best places to build houses and places of work. We had a lovely walk along the river and stopped off to do some field work, creating birds eye sketches of the Tees Barrage. The children were given the opportunity to go up into the control room to open and close the locks.

Everyone had a fantastic day and really impressed the barrage staff with their prior knowledge!
