1. Mission Statement

St. Joseph's Catholic Primary School is a community and the school's mission statement informs all that we do.

We are:

- **A welcoming school,**
where everyone cares for and respects each other.
- **A learning school,**
which inspires creativity and challenges through guidance and encouragement all members of the community to learn and aim to be the best they can be.
- **A vibrant school,**
which celebrates its variety and creativity and seeks to meet the needs of each person by working together in this ever changing world.
- **A holy school,**
where prayer and worship are valued and we the community serve as a living witness to the Gospel of Jesus Christ

Aims:

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#). The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities. Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Access to Physical Environment

Wheelchair Accessibility

All areas of the school are wheelchair accessible.

The school has a lift in each building which can be used by children with particular medical needs and/or disabilities, always accompanied by a member of school staff.

The lift cannot be used when there is an emergency evacuation or an evacuation practice. The Evacuation Chair is used instead and key staff have had training in how to use this. A Personal Emergency Evacuation Plan is written for children who may need special assistance in the event of an evacuation.

For children with physical needs who need to follow individual exercise programmes, we have special exercise mats to lessen the impact of our wooden hall floors.

There are accessible toilets on all ground floors. There are two medical rooms in the school, one in the Upper Phase building and one in the Lower Phase building which can be used to administer medication and for changing. There is a shower in the Lower Phase and Middle Phase. First aid supplies, personal care items and some larger items of special equipment can be securely stored in either of the Medical Rooms.

Where specialist equipment is required to enable access for children with disabilities, the Inclusion Leader will liaise with OT Services to ensure this is made available.

Accessibility for Deaf and Hearing Impaired Users

Larger classrooms and common areas of the school have special ceiling panels which help to decrease noise levels. This supports all children and especially those with hearing impairments and some children who are sensitive to noise.

Radio aids are available through the Ealing SEND Services.

For children with hearing impairments and/or children who are sensitive to noise, 'ear-defenders' are available.

For hearing aid wearers, spare batteries and hearing aid maintenance kits are readily to hand with spare kits kept in the Inclusion office.

Accessibility for Visually Impaired Users

Classrooms have blinds which are used to try to reduce glare on interactive whiteboards.

Accessibility on Trips and Residential Visits

All educational trips and visits planned by the school are fully accessible. Prior to each visit, risk assessments are carried out to check accessibility and plan adjustments where necessary to enable access.

In Year 6, children have the option of taking part in a residential visit to a PGL site. The centre has a hoist, changing bed and accessible shower for wheelchair users, and it is possible for activities at the centre to be tailored by school staff to meet the needs of all children, and allow those with disabilities to access them.
