TEACHER'S TOP TIPS

Bring the correct equipment – Black Pens, Pencils, Colours, Ruler, Rubber, and Sharpener

Answer all questions, leave no gaps, you will not lose marks

Do basic sketches/drawings initially then use time at the end to add detail/colour

Transfer your knowledge, apply what you have learnt to the questions, it might just be in a different context

Look at the mark allocation and write one sentence or point for each mark. Try to avoid repeating similar information unless you have nothing else to write.
