We learn about how Jesus gave everything for us and how we can give during Lent. 

Creative Curriculum Overview Year 3 Spring Term

Art

We will continue to use our sketch books to develop our drawing skills. We will be looking closely at birds feathers and drawing birds accurately. We are also going to learn how communities in ancient Britain made cloth through weaving.

History

This half term we will be really focusing on our history skills. Looking at artefacts and evidence finding out how homes and food change during the Stone Age and how Viking invasions affected the lives of people in Britain.

Music

We will be continuing to develop our ukulele skills with the hope soon putting on a small concert.

Turn Back Time

How have the lives of people in Britain changed during the Stone Age and Viking eras?

Visits/Visitors

We will be taking a trip down to the Garden of Eden to have a go at cooking on an open fire just like early Britain's would have done. Hopefully later on in the term we will be having a visit from a real life Viking.

Geography

We will be building on our skills from last term using maps and atlases to locate where Vikings came from and which parts of Britain they settled in.

Computing

We will be learning how to use databases to collect and retrieve information. We will be using this information to support our work for the Big Schools Bird Watch.

PE

In PE we will be focusing on gymnastics, learning how to perform various moves and balances to create a routine.
