Spring 2

Meet the Greeks!

As the SATs tests approach, the single greatest thing your child can do to prepare is also the easiest...to read! This will also have numerous other benefits such as supporting spelling, grammar and providing writing ideas.

Research suggests that children who read regularly are more likely to be successful so...what are you waiting for!

March already! I can't believe how quickly this year is going and I'm sure the news about your children's high school places will only exaggerate that! But before that, we've still got lots of exciting learning to enjoy... In English, we will be finishing our nature documentaries and will also be creating some animal art to go with this. In reading, we will be finishing off our class novel 'Holes' and will be comparing it to the film. In topic, we will be looking at Ancient Greece, focusing on the legacy they left, Greek food, the Olympics, the battle between Athens and Sparta and the origins of democracy...another busy term begins!

Check out all of the latest goings on in Yarrow class by following us on Twitter!
