# Heapey News

Summer 1

Our value this half term is 'Love'

This half term in Heapey Class our topic looks at the big question. *Can you make a cracking contraption?* In answering this we will look at different *learning challenges* every week. It is through our learning challenges that we develop and expand our knowledge in subjects like geography, science, history, art, IT, literacy and maths.

Keep going with the weekly maths packs and TT Rock Stars. Little and often are the key to secure learning. Our children are becoming great mathematicians

Our new whole class reward system is up and running. We are all working towards a goal and each member of class is invaluable to us reaching our goal. Heapey Class have chosen to bake and go to the park as our end of term reward if we can get to our class total of 1000 Dojo points! With all the fantastic effort and amazing work being produced I am sure we will get there and enjoy our reward.

We are in to the final term now let's make this one our best! Come to school rested and ready to learn. A good night's sleep is crucial to learning!

Please keep reading at home it is invaluable to their reading development. Your child is welcome to bring their own books from home so we can read them at the end of the day. I'm very impressed with lots of our children's love of reading!
