

Heapey News

Mr Hansen

Autumn 1

We hope you have had a lovely summer break!

Firstly a warm welcome to Year 2 Heapey Class. We hope your child will have a happy, enjoyable, productive year. Myself, Mrs Harrison, Mrs Bades and Mrs Heneghan are always on hand to answer any questions however big or small so please feel free to pop in or make an appointment to see us.

This half term our whole school topic is 'One Moment in Time' Heapey class will be learning about Ancient Egypt and all the wonders of that time. We will look at different *learning challenges* every week. In answering these we will learn differing skills and knowledge through geography, science, history, art, IT, literacy and maths. Thank you for all the amazing work that you have done over the summer with their homework it has really brought our learning to life already.

Library books are changed every Monday.
Please check names are in all items of clothing.

Maths at home - I will be sending maths packs home with little activities in to help your child. This term will mainly look at numbers to 100. Counting to 100 forwards and back from any number and the place value of these numbers. We will also focus on number bonds to 10 and 20.

This year we are focusing on using Twitter not class blogs so you can see daily what @Heapey_Class are getting up to with their learning.

Develop a love of reading! Read, read, read. Your child can change their book everyday so please ensure it is in school every day and try and read a little every night.
