Don't Forget

Altogether better

Most kids
have positive
experiences!

But you may
need to help
them to be
safe and
happy

A close-up photograph of a single yellow daisy flower with a green stem and leaves, growing out of a crack in dry, cracked earth. The background is a blurred expanse of cracked soil, emphasizing the resilience of the flower in a harsh environment.

**Helping your
children stay
safe...**

**Building Digital
Resilience**

Time? It is more about Quality...

Consider

- The range of activities...
- Where children access devices – much harder to control when in bedrooms!
- Some parental control apps limit time

Settings – internetmatters.org

The screenshot shows the website's header with the 'internet matters.org' logo, a partnership with 'sky', and navigation links for 'About us', 'Inclusive Digital Safety', and a search bar. A secondary navigation bar includes 'ONLINE ISSUES', 'ADVICE BY AGE', 'SETTING CONTROLS', 'GUIDES & RESOURCES', 'NEWS & OPINION', and 'SCHOOLS RESOURCES'. A breadcrumb trail reads 'You are here: Home > Parental Controls'. The main heading is 'Parental Controls', followed by the text: 'Give your child a safe space to explore their curiosity online. Our step by step guides will help you to set up the right controls and privacy settings on the networks, gadgets, apps, and sites they use to give them a safer online experience.' A green button below says 'SEE SET UP SAFE CHECKLIST'. To the right is an image of a child and an adult using a tablet and laptop, with various digital icons overlaid on the scene.

What are parental controls?

Parental controls are the names for a group of settings that put you in control of what content your child can see. Combined with privacy settings these can help you protect your children from the things they shouldn't see or experience online.

Discussion – knowing their apps and games

Talk.....

- *What is your favourite game or app?*
- *Show me what you watched today...*
- *What is the best thing on your tablet?*

Altogether better

Good Digital Citizen

- Help your child to be nice to others on line
- Make sure that they can share any worries with you
- Online bullying is still very worrying for many children

Talk to strangers!

377K Like 43,000+ online now

You don't need an app to use Omegle on your phone or tablet! The web site works great on mobile.

Omegle (*oh-meg-ull*) is a great way to meet new friends, even while practicing social distancing. When you use Omegle, we pick someone else at random and let you talk one-on-one. To help you stay safe, chats are anonymous unless you tell someone who you are (not suggested!), and you can stop a chat at any time. Predators have been known to use Omegle, so please be careful.

If you prefer, you can add your interests, and Omegle will look for someone who's into some of the same things as you instead of someone completely random.

By using Omegle, you accept the terms at the bottom. You must be 18+ or 13+ with parental permission.

Video is monitored. Keep it clean ! *

18+: ([Adult](#)) ([Unmoderated Section](#))

What do you wanna talk about?

Add your interests (optional)

College student chat

Start chatting:

Text or Video

Spy (question) mode Unmoderated section

By using the Omegle Web site, and/or related products and/or services ("Omegle", provided by Omegle.com LLC), you agree to the following terms: Do not use Omegle if you are under 13. If you are under 18, use it only with a parent/guardian's permission. Do not transmit nudity, sexually harass anyone, publicize other people's private information, make statements that defame or libel anyone, violate intellectual property rights, use automated programs to start chats, or behave in any other inappropriate or illegal way on Omegle. Understand that human behavior is fundamentally uncontrollable, that the people you encounter on Omegle may not behave appropriately, and that they are solely responsible for their own behavior. Use Omegle at your own peril. Disconnect if anyone makes you feel uncomfortable. You may be denied access to Omegle for inappropriate behavior, or for any other reason. OMEGLE IS PROVIDED AS IS, AND TO THE MAXIMUM EXTENT ALLOWED BY APPLICABLE LAW, IT IS PROVIDED WITHOUT ANY WARRANTY, EXPRESS OR IMPLIED, NOT EVEN A WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT ALLOWED BY APPLICABLE LAW, THE PROVIDER OF OMEGLE, AND ANY OTHER PERSON OR ENTITY ASSOCIATED WITH OMEGLE'S OPERATION, SHALL NOT BE HELD LIABLE FOR ANY DIRECT OR INDIRECT DAMAGES ARISING FROM THE USE OF OMEGLE, OR ANY OTHER DAMAGES RELATED TO OMEGLE OF ANY KIND WHATSOEVER. By using Omegle, you accept the practices outlined in Omegle's [PRIVACY POLICY](#) and [INFORMATION ABOUT THE USE OF COOKIES](#) (updated 2014-06-03 - contains important information about video chat monitoring).

Parental control protections (such as computer hardware, software, or filtering services) are commercially available that may assist you in limiting access to material that is harmful to minors. If you are interested in learning more about these protections, information is available at <https://www.connectsafely.org/controls/>, as well as a number of other Internet sites that provide information on this form of protection.

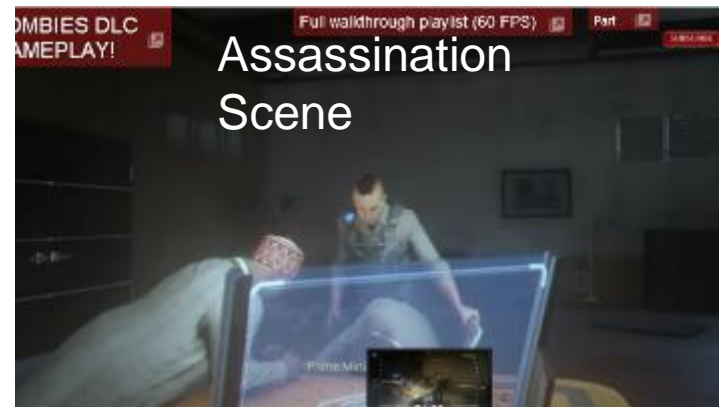

* Omegle video chat is moderated. However, moderation is not perfect. You may still encounter people who misbehave. They are solely responsible for their own behavior.

Altogether better

Content

- Consider setting up filtering
- Don't rely on it – Children may find ways around
- Internet History
- Games – PEGI Ratings

Assertiveness

- Don't be afraid to say no.
- Discuss boundaries with other parents – children will try and play off against each other ... “ Billy is allowed his X Box until midnight !!! “

Altogether better

Don't become a victim of Cybercrime!

- Have a good Password
- Use “Dual Factor” authentication (Password PLUS phone!)

Altogether better

Passwords

- Should be long, memorable and include numbers and special characters
- Should NOT be the same for all the sites used – as if one site gets hacked you loose everything
- Some people use a Password manager app such as Lastpass or Dashlane
