

St Maria Goretti Catholic Primary School
Physical Education Statement of Intent

Confident, Safe, Respectful, Unique, Independent, Community, Teamwork
Nurturing, Compassion, Aspirational

At SMG we continue to show dedication to utilise the power of Physical Education to enable our children to grow holistically. We strive to create cohorts of children, who go on to live physically educated lifestyles.

By **nurturing** our children, from a young age, with a **unique compassion** that suits their needs; we provide **safe, respectful** and purposeful learning environments throughout their school learning journeys.

Our children (of all abilities) are encouraged to grow their **confidence**; to be creative within our school **community** in a variety of physical disciplines.

Using high quality teaching, alongside our links with innovative and established Physical Education partners, we teach a newly designed whole school curriculum that gives our children both creative experiences and maximises their opportunities to achieve personalised progress through physical education.

By challenging our children to be **aspirational** with high expectations; we strive for the children to become both **independent** learners and also proficient with invaluable **team working** skills.

Through Physical education we are educating our children to allow them to shine with God's love, pride and success now and in future.

SMG School Sport

The quality and profile of School Sport at SMG is very high and continues to grow. We have taken the necessary steps to ensure that developments across our PE, School Sport and Physical Activity (PESSPA) are sustainable and have our children's best interests at their core.

Take a look at the School Sport page at: www.smgprimary.co.uk/school-sport/ to find out more about our sporting mission and ongoing sporting highlights.
