

The Inaugural National Supported Internship Day Monday 27th March 2023.

AT A GLANCE

We're shining a light on an important issue - the low rate of employment for people with learning disabilities and/or autism in England. Did you know that only 4.8% of them secure paid employment? This needs to change, and we can all play a role in making a difference

Project SEARCH:

Supported Internships are a work-based study programme for 18 to 24 year olds with SEND, and they can be life-changing. They provide young people with the opportunity to gain real work experience, learn new skills, and build their confidence.

Internship success:

We're proud of the Project SEARCH Derby programme, 100% of the previous cohort gained paid employment after completing the programme.

Vote of thanks:

We are eternally thankful for the commitment from the Royal Derby Hospital, particularly the Trust, ISS and Steris who have been exemplary at providing a wide range of placements for the Interns.

We need you!

We are always open to new placements, and we strongly encourage you to see if you could offer any new placement areas to help make the programme grow.
