

Google Pay Parents can set up Google Pay following these instructions: [Download the Google Wallet app](#)

Apple Pay Parents can set up Apple Pay following these instructions: [Set up Apple Pay](#)

Once set up, parents will see the Google or Apple Pay button when making purchases through the app for things like account top-ups, trips, clubs or School Shop items.

You will then be able to authenticate the payment, and receive a confirmation of payment completion within Apple or Google Pay.

For faster payments, use the Basket feature where you can add payments to your basket to allow you to pay for clubs, trips, meal or other account top-ups for multiple children all in one household in one payment! **Please note that this feature is not currently available on the Arbor App.**

To use the basket feature, you'll need to be logged into the Parent Portal *login.arbor.sc* on a computer.

You can continue to make payments for single items on the Arbor App.
