Owls

Topics Overview

AUTUMN SECOND HALF TERM

MATHMETICIANS

Our main focus is multiplication this half term. We will be learning and practising our times tables and then applying these to multiplication and division problems. We will also be looking at measure.

WRITERS

As writers we will be using our class novel to inspire our own play scripts. We will then look at how to write a biography.

CATHOLICS

We are looking at the prophets in the Bible who told about Jesus coming. This will be linked to our Jesse Tree stories as we prepare ourselves in Advent.

CREATORS

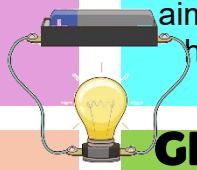

We will look at how artists use charcoal in their work. We will then experiment with the types of marks we can make with charcoal, using our hands as well as the charcoal to show light and dark.

TECHNICIANS

We will be practising our skills on a keyboard so they we can get better at creating documents and touch typing.

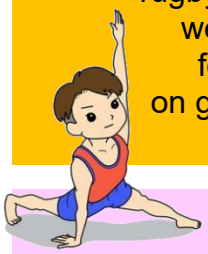

SCIENTISTS

Our focus is electricity. We will be building our own circuits using bulbs, batteries and motors. Our aim is to answer, "What happens if I break a circuit?"

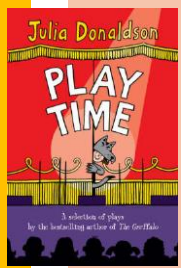

ATHLETES

In our outdoor PE session we will be learning about touch rugby and inside well will be focusing on gymnastics.

READERS

Our class novel is Playtime by Julia Donaldson. This has 11 different plays that we can read and act out.

GEOGRAPHERS

We are studying rivers. Our aim is to answer the question: Can I explain how the water cycle has influenced the River Ribble and its use?

THINGS TO REMEMBER

As the cooler and wetter days continue, please make sure that your child has their navy-blue coat with them every day.
Our PE days continue to be Monday and Thursday. Please check the Team Theme calendar for those extra PE days.
Homework will be sent out on Monday. Children will get spellings to learn, a maths sheet (online for Year 4s) and their reading books will be changed.
Please come and join us for Owls' Assembly on Monday 16th at 9am and Owls' Mass on Wednesday 25th at 2:15pm
