Owls
Topics Overview
AUTUMN FIRST HALF TERM

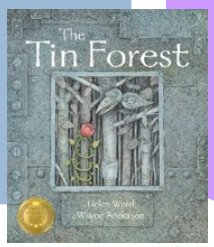

AS MATHEMATICIANS

We will be delving into place value by looking at numbers up to 1000 (our Year 4s will tackle up to 10,000). We will then be reminding ourselves about addition and subtraction and applying these skills to solve problems.

AS WRITERS

We will use our class book, "Tin Forest" to write our own stories. We will then be holding our own debates in class and learning how to write down our own opinions.

As Catholics

We will be engaging with the topic of creation and covenant. We will be looking in the old testament at special people who made a covenant with God. We will think of ways that we can promise to help our world.

AS CREATORS

In Art we are drawing and capturing a sense of drama using charcoal. Our artwork will be inspired by early art and Edgar Degas.

AS HISTORIANS

We will be using maps and local history to study the Lancaster Canal. Our aim is to find out how the use of canals has had an impact on trading overtime.

AS LINGUISTS

The children will be learning how to say hello and other basic greetings. Our Year 4s will add to this as they learn more about introducing themselves.

AS ATHLETES

We will be learning about how to play invasion and target games. Our main focus will be on Handball and Boccia.

AS SCIENTISTS

In science we will be using a branching key to sort animals as we explore the similarities and differences in living things.

As Musicians

The pupils will focus on the history of how written music came to be and learn about the use of notation and how different notes are used to change the pitch.

THINGS TO REMEMBER

Our PE days are Monday and Thursday.

Homework will be sent out on Monday. They will get spellings to learn, a maths sheet to complete and their reading books will be changed.
