

Geography

"The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents." President Barack Obama

Curriculum Coverage					
Upper KS2	Y6		Biomes		North America
	Y5		Settlements and Land Use		Natural Resources
Lower KS2	Y4		Journey of the River		Coasts
	Y3		My Place in the World: The United Kingdom		Volcanoes and Earthquakes
KS1	Y2		Planet Earth		Handa's Africa Adventure
	Y1		Where I live		Wonderful weather

Intent

This geography curriculum will inspire in, all pupils, a curiosity and fascination about the world and its people. It will equip pupils with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. This includes:

- Locational knowledge of globally significant places;
 - Have opportunities to experience physical geography and human geography throughout the learning journey;
 - Have opportunities to experience geography outside the classroom, where pupils will have the geographical skills.
- to be competent in:
- fieldwork to observe, measure record and present the human and physical features in the local area;
 - using a range of sources of geographical information, including maps, diagrams, globes, aerial photographs and Geographical Information Systems (GIS);
 - communicate geographical information in a variety of ways, including through maps, numerical skills and writing at length.

Implementation

The key threshold concepts across the Geography curriculum are taught throughout the units to develop geographically knowledge and skills from EYFS to Y6 and beyond. The curriculum is designed for progression and built around the overarching threshold concepts with content structured as a narrative over time, ensuring essential knowledge is learned, applied and accessible for all pupils. The curriculum narrative is led by the four threshold concepts:

- Location and place knowledge;
- Geographical skills and communication;
- Physical processes and landscapes;
- Human interaction with the environment.

Impact

- Pupils can talk enthusiastically about geography;
- Pupils can use subject specific vocabulary effectively in both written and verbal work;
- Pupils understand their place in the world and are aware of contemporary issues such as deforestation and sustainability.
