

Key Facts

- It is important to know how to make a clear and efficient call to emergency services, if necessary.
- Understanding the basic concepts of first aid and how to deal with common injuries can be.

By the end of these topics, I should:

- complete a primary survey for first aid
- demonstrate the recovery position for an unresponsive breathing casualty
- know when to deliver CPR
- demonstrate how to do CPR
- know when to call for emergency help

Ask me a question!

- What does DRs ABC stand for?
- Can you explain the different steps of the recovery position?
- What is CPR?

I will learn the following new words/phrases:

Unresponsive	<i>Not reacting or responding to communication.</i>
Underlying	<i>Significant as a cause or basis of something but not necessarily obvious.</i>
Casualty	<i>A person badly affected by an event or situation.</i>
Compressions	<i>To press or squeeze (something).</i>
Unconscious	<i>Not awake and aware of and responding to one's environment.</i>
